# REALITY

**WHY FILM?**

Nothing represents your creative vision better than film. Nothing reproduces colour and motion or captures effects quite like it. Nothing is as natural. As personal. But, the reality is that using film also makes good business sense. Film can be transferred to and displayed on almost any format in the world. It is the most flexible medium out there. Order *Why Film* now and learn why there's more to the story.

**IT'S A MATTER OF FEELING AND FACT**
