## Dying a dramatic death? Canadian culture is.

Since CRTC rule changes in 1999, production of English-Canadian television drama has seriously declined.

## Why should you care?

*"A country without a healthy diet of continuing, homegrown drama is lacking in the fibre of contemporary storytelling. In every country that has even the vaguest notion of a culture and identity, there is a distinct link between the idea of itself and the fictive imagination. A country is simply inauthentic if its stories are not reflected back to itself."*
