

We don't like to brag, but . . .

Things are really rolling in Alberta. Since June of 1992, production companies in association with the Alberta Motion Picture Development Corporation, have produced or will be producing eight major productions in the province.

HIGH COLOR PERFORMANCE

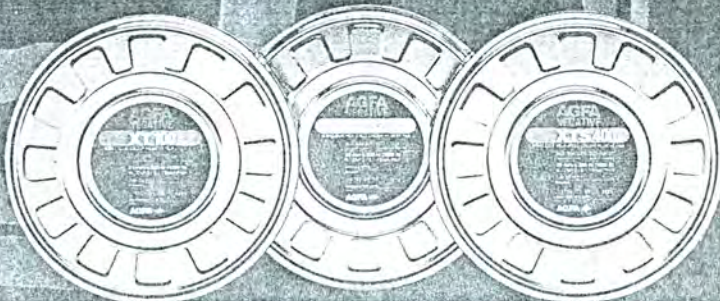

A new dimension from Agfa

The new AGFA XT and XTS color negative films put motion picture imaging in a whole new perspective. Agfa is now offering a comprehensive range of speeds and a choice in color saturation and contrast. Each time with excellent fine-grain images.

XTS 400 A totally new high speed film featuring high color brilliance, the blackest blacks and unprecedented fine-grain for its speed category. XTS 400 is designed with high contrast and exceptional underexposure latitude ensuring the best results in low-light cinematography.

XT 320 The film with a rich tonal range and subtle color rendition producing images with an exclusive texture only available from Agfa.

XT 100 A new medium speed film with high color saturation performance, deep blacks and uncompromising skin tones - even under extreme lighting conditions.
