# BUZZ WORD in ANIMATION

**IT'S NOT JUST WACKY AND WONDERFUL.**

**IT'S AN OPPORTUNITY FOR PARTNERSHIP IN A WHOLE NEW WORLD  
OF ADVANCED TECHNOLOGIES BEING DEVELOPED AT SHERIDAN.**

THE FACILITY. The new Sheridan Centre will soon become the world leader in Animation & Technology. Our students have already helped bring to life such classics as Disney's Toy Story, The Lion King and Pocahontas. Not to mention Dragonheart, The Mask and Jurassic Park.

THE ONTARIO INVESTMENT. Showing their confidence in our potential, the Ontario Government launched our journey into the future with their commitment of up to \$12 million toward our dream: Building the world's most advanced school for animation and related technologies here at Sheridan College. Their faith

in our success has already sparked substantial interest on the part of business leaders in the field.

THE PROFITABLE PARTNERSHIP THAT'S ENTERTAINMENT. AND BEYOND. An educational facility that encourages creativity and collaboration between education and industry in a whole host of profitable ways. It's the cornerstone of Sheridan's operational strategy. A physical and virtual infrastructure that will include design classrooms, studios, labs, communications facilities, a broad band media capability, and space for industry projects and product development. And much more.
