

Today
digital
technology
influences
all aspects of
entertainment
from content
creation to asset
management and
distribution.

As the established
leader in the digital
film production and
visual effects markets,
Silicon Graphics Canada
is dedicated to providing
the best solutions for
serving and visual computing
so film makers and artists can
better and more easily create,
manage and distribute their work.
And we're pleased to support
the industry through our
sponsorship of the 1998 Toronto
International Film Festival.

If you can imagine it, Silicon Graphics
will help you create it. To see what's
possible, visit www.sgi.ca, or call
1-800-263-4744.

**We'RE pROud
to pUt you
in the
SpOtLight.**
