When you believe in something that much, you don't take any decision lightly. Especially one you can't change, like the choice of what you originate on. Film lets you keep all of your options open—before, during and after the shoot. In particular, you'll have more flexibility where it often counts the most—in post-production and in distribution. All without compromising your creativity. So the next time you ask yourself what the cost is if you originate on film, also ask yourself this: *what is the cost if you don't?*

YOU'D RISK YOUR HOUSE, YOUR CAR AND

YOUR CURRENT RELATIONSHIP TO MAKE A FILM

SO, WHAT ARE YOU SHOOTING WITH?

Choose your origination medium wisely.
